Jason K. Dunn-Potter
Global Architect & Executive Innovation Developer -
SLED, FED, & Defense for US PUBLIC SECTOR
Intel

Jason Dunn-Potter is a Subject Matter Expert (SME) for the US Public Sector at Intel Corporation. He works directly with Government agencies and Industry partners to solve complex problems by providing trusted thought leadership and candid feedback.

Jason has worked in and around the US Public Sector, the DOD, and National Security organizations for over 30 years where he has championed optimization, brought innovative change, and led cohesive teams of professionals & technical experts. He has an extensive background in tactical platforms (Air, Land, Sea, and Space) as well as fixed site architectures (Hot & Backup Data Center sites).

Prior to joining Intel Jason served over 26 years as an Active Army Soldier as a Signaleer (Signal Corps) retiring as a Chief Warrant Officer (CW5). His previous assignments included the White House Communications Agency (WHCA) as the CCWO, HRC Senior Signal Warrant Assignment Officer, over 15 years in multiple combat divisions (1st, 2nd, 3rd, 7th & 25th ID's), nearly half a decade in NETCOM organizations (93rd Signal BDE & 335th SC(T) Provisional). He has also deployed multiple times to Iraq (OIF III & V), Afghanistan (OEF), MIA recovery ops to Laos as well as Humanitarian Assistance & Disaster Recovery operations. He was the senior Signal Warrant Officer in 3rd BCT, 3ID and lead the surge in 2007 by pulling the APS out of Kuwait in under a week.

His awards and decorations include the Presidential Service Badge (PSB), Defense Information Systems Agency (DISA) Service Badge, Air Assault Badge, the Defense Superior Service Medal (DSSM), Bronze Star (1x Star), Meritorious Service Medals (3x OLC), ARCOM (3x OLC), NDSM (1x Star) and various other awards.

He has also received nearly a dozen industry certifications in various aspects of IT including Network, Systems, Server, Cyber Security and Executive Management. Jason also holds various degrees including a Master of Information Technology and an active CISSP for well over a decade. Jason is a proud member of many professional organizations including AFCEA, AUSA, USAWOA (President of the Lonestar Chapter), SCRA and a senior mentor for Warriors Ethos. He has published multiple articles for industry trade publications as well as DOD doctrine.
